Discrepancies related with Photographs and Signature:

A large number of discrepancies have been reported in photograph and/or signature image/upload. Here are few common issues that may result in the rejection of photograph/signature.

- Unclear or hazy photograph
- Incorrect size or dimension e.g. Stamp size photo
- Red-eyes due to improper flash
- Focus not on face
- Looking down or here and there, and not looking straight at the camera
- Selfies with people or scenery in the background
- Dark sun glasses or fancy glasses hiding face/eyes
- Invisible signature due to poor scanning or very small size
- Horizontal photograph & vertical signature
- Writing name in capital letters instead of signature in running handwriting.
- Drawing a line or fancy circle instead of a signature.

Candidates are further informed that link for image or signature correction will be available only to those candidates whose photograph/signature has been rejected by NTA. Correction in these two fields can also be made online through website of NTA www.ntajnu.nic.in.
